11/21/2012	Building the database will be difficult.	Expectation	Building the database will be easy.	Delighted	Building the database is my last major obstacle.	Building the database may be tougher than I thought but I'm learning important lessons along the way. Nobody ever told me that this was going to be easy. Nothing worth it ever is. Enjoy the experience for the challenge that it is. Remember, I'm doing this without any help, so trial-and-error is the method I've chosen in order to save money.	1. Critical	Problem-Solving Startup	Database	
11/21/2012	Building the database will be difficult.	Expectation	Building the database will be impossible.	Discouraged	I thought I might get some technical help from PHP Magic.	Go thru the learning curve before I complain in their forum. Remember, I didn't find the older pages of the forum until I put in more effort. Also, I've been overcoming obstacles in spite of their poor technical support. Maybe it's time to cut my losses and find a better PHP code generator that has good customer support.	1. Critical	Problem-Solving Startup	Database
